

FRONTIERS IN AGING

SEMINARS HELD MONDAYS AT 4:00 PM

MONDAY, SEPTEMBER 10, 2018

CLARK CENTER AUDITORIUM

Dongsheng Cai, MD, PhD

Albert Einstein College of Medicine

Hypothalamic inflammation in metabolic syndrome and aging

MONDAY, OCTOBER 8, 2018

MUNZER AUDITORIUM

David Walker, PhD

UCLA

Interventions that prolong healthspan in Drosophila

MONDAY, NOVEMBER 5, 2018

MUNZER AUDITORIUM

Stephen Helfand, MD

Brown University

Retrotransposons as agents of somatic diversity, disease and aging

MONDAY, DECEMBER 17, 2018

MUNZER AUDITORIUM

Vera Gorbunova, PhD

University of Rochester

Longevity mechanisms: lessons from long-lived mammals

MONDAY, FEBRUARY 4, 2019

MUNZER AUDITORIUM

Nadia Rosenthal, PhD, FMedSci, FAAHMS

The Jackson Laboratory

New strategies for accelerating regeneration

MONDAY, MARCH 11, 2019

MUNZER AUDITORIUM

Alex Gould, PhD, FMedSci

The Francis Crick Institute

Coping with a stressful start in life

MONDAY, APRIL 15, 2019

MUNZER AUDITORIUM

Isabel Beerman, PhD

NIH, Translational Gerontology Branch/

Epigenetics and Stem Cell Aging Unit

Stressing hematopoietic stem cells to age

MONDAY, MAY 13, 2019

MUNZER AUDITORIUM

Keith Blackwell, MD, PhD

Harvard Medical School

Nutrient signaling mechanisms that influence aging
